## Additional information

For combinations of poufs and low back seater segments:

- There are separate low back seater segments for the left side, right side, 90° corner and the centre. Poufs are universal and can be put on either side or in the middle.

right sided

left sided

central

90° corner

universal

- Poufs and low back seaters can be combined in any order. Combination can be ended or interrupted with a pouf.

- When ordering tables G2A0911, G2A0604, G2A0605, an additional set of legs must be ordered for each table.

!

- Tables G2A0911, G2A0604, G2A0605 can be mounted only between two seaters, not at the end of the combination.

!

- Two or more tables cannot be connected. There must be a seater segment between the tables.

!

- When connecting curved segments only, at least 4 segments should be connected.

For combinations made of high back seater segments:

- There are separate high back seater segments for left side, right side, 90° corner and the centre.

right sided

left sided

90° corner

central

!

- High back combination must always end with two side segments (left and right).

!

- Tables G2A0911, G2A0604, G2A0605 are not compatible with high back combinations.

!

- Low back segments or poufs cannot be used in combination with high back units.

!

- High back curved combination must always end with two side segments (left and right) and have at least 4 of them in total.

## Ordering legs and connecting brackets

Additional set of legs (2 pcs.) need to be ordered:

- To finish every combination;
- For every table G2A0911, G2A0604, G2A0605 used in the combination;
- If demanded seat height is 450 mm product must be ordered via customer support service, only metal legs available: G3E0011 (4 pcs.), G3E0012 (2 pcs.).

- A set of connecting brackets (2 pcs.) must be ordered for each connection between seater segments.

- Connecting brackets for accessories do not have to be ordered separately, all necessary connecting brackets are added to the accessory package.
